

Seeing Gems^(R) As More than Just Loss: Abilities & Characteristics of Dementia

November 5th, 2021 10am - 12 noon

CE'S AVAILABLE: NURSING, SW, & OT

Sponsored By:

Pre-Registration
Required

Live and Virtual Workshop

This is an ideal opportunity to sharpen professional skills in order to confidently serve the ever-expanding population of seniors with Dementia.

Workshop Objectives:

- Discover three number-based systems that are used to "label" stages/progression of dementia, exchange levels for GEMS
- Examine the importance of seeing people with dementia as having abilities, value, and benefiting from the right support and care to optimize their performance and quality of life.
- Identify six GEM levels for dementia progression, compare and contrast these states to complete a table of activities appropriate to each level and support suggestions
