

A Conversation Can Clarify So Much

If you or your loved one is seriously ill, it is normal to feel scared about the future and overwhelmed by a complex healthcare system. VITAS® Healthcare is here to help.

When you're ready to review healthcare options and make decisions about what happens next, VITAS team members who are experts in advanced illness and goals-of-care conversations provide guidance and support.

A goals-of-care consultation takes place in a location of your choice—your home, a hospital, skilled nursing facility assisted living facility or physician's office.

- Understand your goals, wishes and values
- Choose a realistic plan of care, based on your values and preferences
- Improve communication among you, your family and healthcare professionals

Spend less time in the hospital and emergency department—and more time with loved ones. VITAS has the time, experience and expertise to help seriously ill patients and families make challenging decisions a little easier.

Please call VITAS at 513.742.6310 to arrange a goals-of-care consultation.
